Calendula "Orange King Improved"

Ball Calendula

"ORANGE KING IMPROVED"

The very finest, largest, double deep orange Calendula yet produced. Flowers are uniformly full and distinctly rounded or ball shaped, unlike the flat heads found in the old types of Calendulas. It is in bloom almost continuously from the last of June until destroyed by heavy frosts. Flowers Glowing Gold, the largest, the brightest colored, and the most perfectly double you have ever seen. Four inches in diameter and so double as not to show a bit of center. Pkt., 15c.

Petunia

California Mammoth Flowered Invincible

The Largest and Most Beautiful Petunia Ever Grown

An entirely new class—distinct from any others in the exquisite colorings, and in the general appearance of the flowers. These are all fringed and fluted in every conceivable manner, and are, without question, the largest, prettiest and most wonderful Petunia ever grown. The colors are startlingly brilliant—some solid colors, but mostly a combination of colors never seen before in one flower. Pkt., 25c.

Pkt., 15c.

Gladioli Collection

50 BULBS FOR \$1.00

(Blooming Size)

A mixture of named varieties. Not less than half a dozen varieties, so there will be a good assortment of color. The number of each variety will vary according to what we have to spare. Many do not care for the name, just so they get a good flower, and in putting them up this way, we can afford to sell them cheaper. We are offering these bulbs in this way and at this price to work off our surplus. This is a mighty good opportunity to get a start of a good assortment of this wonderful flower. Will sell you any larger amount at the rate of \$2.00 per 100 bulbs, as many dollar's worth as you want at this price, but not less than \$1.00 worth.

THE NEWEST ASTER

Yellow Chrysanthemum

The rarest and newest Aster being the *brightest sulphur yellow*, not a mere indication of color, as in all former productions. The border petals are broad and of a lighter tint. The flowers are remarkably full and double, with centers well covered. The plants are of the branching type, vigorous growers and many will produce from 16 to 24 fancy flowers on long stems, suitable for fancy cut flowers. Flowers are produced so numerous that a plant looks like a gold dome. A truly superb Aster. Pkt., 10c.

ASTER PLANTS

We will have some nice Aster plants to offer in April and May at 40c per dozen for mixed, or 50c per dozen for separate colors. These will be good, strong plants and will be mailed postpaid. Send orders now and we will send plants when ready.

"EARLY DAWN"

This is one of the earliest Asters of the Ostrich Plume type coming into flower even earlier than Queen of the Market. As a pure white cut flower, there is nothing to surpass it, and its earliness renders it excellent for market garden purposes. Pkt., 15c.

Gladioli Bulblet Collection

200 for 25c; 1,000 for \$1.00

These are the little fellows from which we grow the blooming size bulbs to sell a year from now. Some few of them will bloom this year, but all will bloom next year. These are from our best mixture. Most growers refuse to sell these bulblets, but I have decided to offer a limited amount of them at 200 for 25c; or \$1.00 per 1000, postpaid.

HEAVENLY BLUE IPOMEA

A trellis, arbor or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. Our strain blooms during August and all fall. Pkt., 15c; 1/4 oz., 30c.

New Dahlia Flowered Zinnia

Monstrous Flowers; Wonderful Colors;
Continuous Bloomers

The plants are of strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches deep. Similar in shape to the Double Decorative Dahlias. The range in colors not only include the usual shades, but many unusual tones.

EXQUISITE—Light Rose Color. Pkt., 15c.

MONARCH—Deep Crimson. Pkt., 15c.

ORIOLE—Orange and Gold. Pkt., 15c.

THE CHILDREN'S GARDEN

Over 100 varieties of easy growing, pretty flowers.

Of course, grownup people can plant it too, if they want to, and if there are no children around that want it, but it is specially meant for children. Every child just naturally wants to dig in the dirt and have a garden. And they want a little of everything in the garden. It would take a hundred packets of seed to supply everything a boy and girl would like to plant. So we have rolled the hundred packets into one. That is, we have taken over a hundred different kinds of seeds and made one big mix of it all that will just suit the kiddies. They can plant it mixed that way or sort out each kind by itself. There's enough seed here to make a wagon load of garden stuff and a whole garden of flowers. I really believe a bright boy can grow \$5.00 worth of garden stuff from it. Pkt., 5c; oz., 15c; 1/4 lb., 45c; lb., \$1.00.
